

# The Topspin Lob

6 October 2008

## Special Edition

It really is amazing how much can be achieved by a few hard working people in a relatively short time. Fifteen people were able to help out at the Club working bee held last Friday and HUGE thanks go to:

Barry Herbert	Ed Van Dijk	Graham Smith	Joy Matus	Pat Hunt	Roger Cawley
Barry Milligan	Frank Matus	Helmut Mueller	Len Steele	Quentin	Viv Richardson
Dennis Jelavic	Gary Enticott	Jane Knight	Murray Soebels	McCutcheon	Wayne Richardson

I'm sure you'll be able to see the difference next time you go to the Club. The brick paving in front of the kitchen, under the sail shades, is just about finished. Frank finished off the job Monday morning, and the tape will come off for the grand unveling on Wednesday! Frank's workmates were the two Barries, Ed, Gary and Len. Viv and Wayne spent their time digging the garden in front of courts 5 and 6 which they cleared of all weeds and replanted and mulched. Also, a lot of bushes around the courts were cut back and tidied up by Denis, Roger and Murray. Most of the holes in the fencing have been repaired by that capable duo of Graham and Helmut. Hours of brushing by Murray, Joy and Roger resulted in vast quantities of sand being removed from courts 7 and 8. Many of the benches around the courts have been in pretty bad shape, but Pat and Barry H spent quite a bit of time repairing them and hopefully they're safe to sit on now!

Hopefully, you will also notice the entire clubhouse has a fresh new coat of paint, thanks to Jurgen Scharla, who did the entire building in one day! How does he do it?

Thanks also to John Fergusson for allowing us to use his tools. (I think Frank got to like that chain saw!)

OK, what shall we murder next??

Praying the paving will look good

Must get this measurement accurate

This fencing takes a lot of concentration!

Back breaking work!

Gotta get more energy somehow

Finished - at last

Well deserved R&R
